

WINTER TRAIL ETIQUETTE

RESPECT

YIELDING - BE NICE, SAY HI!

- Fatbikers yield to skiers and snowshoers
- Snowshoers yield to skiers
- To pass, slow down or stop and announce yourself. Pass only when it is safe
- Make space for others to pass you
- Fatbikers may not be able to quickly or easily step off the trail when yielding
- Be prepared to stop at all times: for other users, fallen trees and wildlife

YES

LEAVE A FLAT TRACK

- Fatbikers, use correct tire size and pressure, at least 3.8" wide tires and 1-5 PSI
- Avoid hiking on unpacked snow without snowshoes
- Stay on designated trails in single file

NO

BAIL OUT IF YOU'RE SINKING IN

If it's just snowed or conditions are soft, make sure you are using snow equipment to pack in the trail without postholing.

When you break through the surface of a packed trail and **leave deep tracks**, it can create icy holes or ruts that make skiing dangerous and fatbiking and snowshoeing unpleasant. Please don't do it.
